

TASConnect Early Payments

Optimise working capital. Strengthen supplier relationships.
Enable sustainable growth.

Built for Speed, Designed for Impact

With client-first technology, smart data insights, and deep banking expertise, TASConnect helps you unlock liquidity fast—delivering measurable results from day one.

Scale Efficiently and Sustainably

Whether you're embarking on a new financing structure or replacing an expensive legacy system, TASConnect enables you to scale early payment initiatives without straining internal resources.

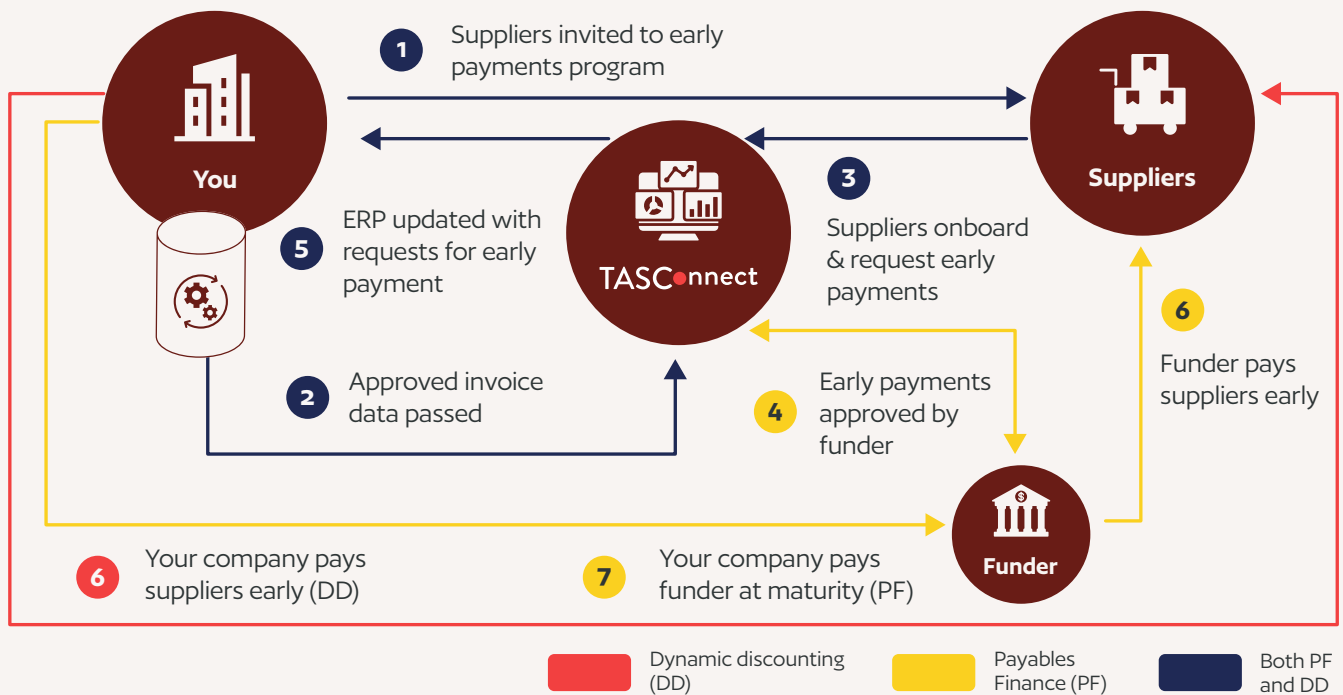

Keep Your Supply Chain Moving

Our platform is designed for easy adoption—helping you support the majority of your supplier base in the first year. That means stronger cash flow across your network and less disruption down the line.

TASConnect has provided us with a digitalised and ecosystem-driven cross-border supply chain finance platform along with professional and meticulous support at every stage, including demand analysis, solution design, internal alignment, and customised planning.”

Gao Minghui
Chairman of Protus Group

	 Accelerated with TASConnect	 Traditional Approach
Program Setup	1–3 months	3–6 months
Supplier Onboarding	Weeks to 2 months (self-serve)	3–6 months (manual)
Pilot Launch	2–4 months	6–9 months
Full Rollout	6–12 months	12–24 months
Supplier Coverage	60–90%+ of suppliers	10–30% of suppliers
Liquidity Unlocked	Maximised liquidity	Limited liquidity

Our Features

Powering smarter, faster supply chain finance.

Multi-Funder Flexibility

Use your own capital or choose from a network of banking partners—without integration hassles. All funders connect seamlessly through the TASConnect platform.

Credit Note Safeguards

Automatically offset credit notes against upcoming payments (FIFO) or based on specific dates when unresolved credits are detected—ensuring accurate disbursement.

Seamless ERP Integration

Automate remittance updates and reconciliations directly within your ERP system. Eliminate manual work while maintaining complete data accuracy and audit integrity.

Supplier Self-Onboarding

Empower suppliers to register for early payment programs with just a few clicks. Provide full transaction visibility, including invoice-level details like amounts, discounts, and credit offsets.

Dynamic Funding

Set dynamic funding preferences that adjust in real time based on available cash and margin targets. Instantly modify settings to align with shifting liquidity needs.

Cash Flow Intelligence

Leverage real-time analytics and network insights, powered by machine learning, to monitor impact, fine-tune performance, and plan future working capital strategies.

Turn payables into possibilities.
